THE BOARD MEETING

HELD THURSDAY MORNING 11
MONTHLY SESSION.

ALUMNI TO HAVE CHARGE

Of the Graduating Exercises of the
High School to Be Given
in May.

A meeting of the school board was held Thursday morning in the office of W. A. Blagg to canvass the returns of the school election held in Maryville Tuesday. The three directors elected to succeed themselves Tuesday—W. A. Blagg, W. H. Crawford and L. C. Cook—were installed.

The following officers of the board were elected: W. A. Blagg, president; J. R. Brink, vice president; James B. Robinson, treasurer.

The monthly report of Superintendent C. A. Hawkins was read and approved.

Supt. Hawkins has been considering the matter of putting the graduating exercises of the high school in the hands of the alumni for some time, because there are now many prominent men and women among those who have graduated from this school, from whom could be chosen speakers and entertainers that would delight our people. He has now decided to do so.

Merrill Otis of Hopkins, who is known throughout Missouri as one of the best young orators in the state, and was widely known as a debater for the state university at Columbia, will deliver the class address on Friday night, May 26.

The baccalaureate sermon will be delivered on Sunday, May 21.

All the exercises will be free. The exercises will not be held in the high school auditorium, as it only seats about 700 people, and the crowd that will turn out to hear these former high school students will not be held by any public building in town.

This fact reminds us how very much an auditorium is needed in Maryville that will seat at least 5,000 people. The way public school affairs have been patronized in the past it wouldn't be too much to think that more than 5,000 people would come out to hear Merrill Otis, or Forrest Donnell, or Will Shullenberger, or any other of the Maryville boys who are known as speakers, if there were a place in town big enough to hold that many people.

When The Democrat-Forum publishes the high school alumni history, the people of Maryville and Nodaway county are going to realize that our state university and other higher schools of learning had some good timber to work on.

Michau of St. Joseph have formally announced the approaching marriage of their daughter, Miss Marie Michau, to Mr. Louis Hax Smith, which will be solemnized at the home of the bride's parents at 6 o'clock Wednesday evening, April 19. The bride-elect, in company with her sister, Miss Mada Michau, were recent visitors in Maryville, the guests of their cousins, Mr. and Mrs. Edward L. Townsend and Mr. and Mrs. Ferdinand Michau Townsend. The prospective bride and groom are members of two of St. Joseph's oldest and most prominent families. Mr. Smith is of the Louis Hax Smith Furniture company.

Harl-Carmichael.

The following article is from the St. Louis Owl-Headlight:
Miss Fannie M. Harl of this city and Mr. J. H. Carmichael of Pickering, Mo., were united in marriage Sunday morning, April 2, at the home of the bride's mother, on Fifth street. The simple, yet beautiful and impressive ceremony was performed by Rev. C. H. Britt, of the Methodist church, who, in the presence of a few relatives and friends, made them husband and wife.

The bride was becomingly attired in a gown of blue silk, trimmed in lace and satin, while the groom wore the conventional black. She is well known here, having at one time been a teacher in our public schools, and has a large circle of friends who wish her happiness and prosperity. She was a loyal member of the Methodist church, and she and her faithful and efficient work will be greatly missed in all the departments of the church; yet our loss will be gain for those among whom she is to live, in that they will have among them one who is such an earnest worker in the Master's vineyard.

Mr. Carmichael is a prosperous farmer of Nodaway county, and while he is a stranger here he has a large number of friends who congratulate him upon the choice he has made.

Mr. and Mrs. Carmichael left Monday morning for Pickering, where they will make their future home.

DRILL IN MILITARY TACTICS FOR BOY SCOUTS

Captain E. S. Cook, with the aid of Lieutenant Bennett and Sergeant McDougal, gave the Boy Scouts their first drill in military tactics Wednesday night at the armory. The evening was spent in going through some simple calisthenics and in practicing the first foot movements. The patrol leaders, Philip Colbert, William Van-Cleve, Joe Farmer and Verne Pickens, each given practice in commanding the entire company of scouts. The boys are particularly interested in this phase of their work, and they showed exceptional ability in the way they took hold of it Wednesday evening. Captain Cook has very generously consented to meet the Scouts every Wednesday evening and teach them the different drills. His work will be invaluable to the Scouts, not only for their present pleasure in the military feature of it, but as a training in discipline which will last them throughout their lives.

Baby Melba Sang.

During the hurry and bustle of buying tickets and checking baggage at the Wabash depot Wednesday forenoon, busy, talking men and women were silenced by a baby voice singing:

"Put on yo' ol' dray bonnet,
Wif de boo wibbons on it,
While I hitch ol' Dobbin to he s'ay,
And tro' fief's de tover
We will drive to Dover
On our golden wedding day."

Clearly and sweetly all through the familiar song the little flaxen-haired, blue-eyed girl sang, while she stood up in the seat by her mother and toyed with a tiny ring on her finger. Then looking up just as she got "Ol' Dobbin to he s'ay," she discovered all looking and smiling, and the song came to sudden stop. The little girl is 2 years old and is rightly named Melba. She is the daughter of Mr. and Mrs. Luke Brown of Beville, Mo.

The fact has been confirmed by Melville D. Martin, brother of Mrs. Gates, who would not make any comments about his sister's case aside from saying that papers had been served on Mr. Gates and that he had not filed an answer.

Sioux Falls, S. D., April 6.—More than two hundred of the ranchers and homesteaders of Custer and Fall River counties have perfected an organization, to be known as the Fall River and Custer County Live Stock Protective association, preliminary to waging a war to a finish against cattle and horse rustlers, who, during the past few months, have been unusually active in the two counties.

Work on the building will probably commence within the next few weeks.

HOW ARBOR DAY CAME TO BE

On the outskirts of Nebraska City, Neb., is a wonderful estate of flowers and trees and shrubs—an estate that forms one of the things which everyone in Nebraska City is proud of and which every visitor "just must see." It is the estate of a man whose body died years ago, but whose memory continues to live on—J. Sterling Morton, the originator of Arbor day. The name of the place is Arbor lodge, and there enough trees grow to stock a small sized forest.

It was not the soil that was bad when Sterling Morton went to Nebraska, it was the fact that prairie fires had destroyed everything yearly. These carried, it was found that the land was rich. Then Mr. Morton began to evidence his love for trees. He sent to friends in the east for slips and seeds. They were forwarded to him. Soon about the houses as they were built were formed groves of various trees, and with the trees as they grew also grew Morton's love for them. From the first cottonwoods, transplanted from the creek, he continued to beautify the place, and when he could, after his start was made, he imported rare varieties from every part of the world.

Then the idea began to grow stronger within him. He sought to teach the neighbors the value of trees, and he did teach them. After that came the inspiration for Arbor day. He consulted the legislature. The bill was drafted. It was passed in the early '70s, and thus was created Arbor day. The first Arbor day was April 19, 1872. The state board of agriculture had taken an interest in the idea and had offered a prize of \$100 to the person who would plant the greatest number of trees. As a result of this offering, more than a million trees were planted in Nebraska that first Arbor day.

The success of the idea needs hardly to be mentioned. Nearly every state in the Union has an Arbor day now, and even England, Japan and other countries have adopted the custom of tree planting. The Arbor day for Missouri and Kansas, as set aside by proclamation, is tomorrow.

Miss Beas Boham of Rosendale came to Maryville Thursday to spend the day with her brother, Wallace Horner, of the Grear-Henry drug store.

Miss Chloe Davis, a State Normal student, returned to her home, near Arkoe, Thursday.

COUNCIL MEETING

FRIDAY EVENING TO CANVASS
ELECTION RETURNS.

ALSO NEW MEMBERS

Will Be Installed—Appointments to
Come Up the First Meeting
Night in May.

At the meeting of the city council Friday evening the aldermen elected at Tuesday's election will be installed. Only two members will retire—Henry Hudson and John Sigus. The new members of the council will be C. D. Hooker and J. H. Gray. Mr. Hooker was a member of the council several years ago.

The city council will then be composed of Henry Foster and O. K. Herndon from the First ward, C. D. Hooker and F. C. Conrad from the Second ward, J. H. Gray and Jim Andy Ford from the Third ward, and Louis Gram and Frank Ewing from the Fourth.

On the first meeting night in May Mayor Robey will recommend to the board his appointments for the various city offices for the coming year. It is expected that no changes will be made.

Another matter that will probably come up before the council in the near future will be the building of a city hall in Maryville. The proposition is meeting with much encouragement from the citizens, and it is thought that it will carry. While no definite plans have been made yet, Mayor Robey hopes to be able to give out in a few days an outline of the proposition.

Maryville should have a new city hall—one that would be in keeping with our other public buildings.

OFFICE ROOM ON NORTH SIDE OF SQUARE

Arrangements have been made by the county court for an office room for County Surveyor George S. Miller over the store where J. M. Smith formerly was. The court made an order at the March term for Mr. Miller and County Superintendent Oakerson to office together in Mr. Oakerson's office in the court house, but some objection was made, and the court decided to lease a room out of the court house, which is all filled with office rooms.

WHY SHIP PLANS WERE LOANED TO ARGENTINE

Action Was for the Extension
of American Trade Relations.

Washington, April 6.—In compliance with a resolution adopted by the senate last session calling for information concerning the part played by the state and navy departments in obtaining from the Argentine republic contracts for the building of two battleships in private American yards, replies were sent to the senate by Secretary Knox and Secretary Meyer.

Both of these cabinet officers defended their course in permitting the use of confidential plans of the dreadnought type of vessels now being built for this government and secret devices embraced in armament.

The responsibility of justifying the action of this government chiefly fell to the secretary of the navy, but Secretary of State Knox, in his answer said the action of administration officials was in accord with the policy of the act of 1909, under which the department of state was reorganized and the purpose of which was the extension of American trade relations.

THIRTY PASSENGERS ROBBED

Interurban Car Held Up by Two Bandits Near Los Angeles.

Los Angeles, April 6.—An incoming Glendale interurban car was held up by two men who robbed thirty passengers and the motorman and conductor. The passengers were then ordered to leave the car and the motorman forced to run the car a mile into the city where the robbers let it. The robbers secured several hundred dollars and all the watches from the passengers.

Three Men Drowned.

St. Charles, Mo., April 6.—A gaso-line launch, in which three men went duck hunting, capsized in the Missouri river near here. A dog which was in the boat swam ashore. The men, Gus Rieskamp, Joe Whyes and Joseph Christopher, are believed to have been drowned.

Million Dollar Damage by Storm.

Middlesboro, Ky., April 6.—Damage estimated at over \$1,000,000 was caused in Middlesboro and the Yellow creek valley by a cloudburst. All streams in this section overflowed.

Carnegie Hero Fund for Sweden.

Stockholm, April 6.—Andrew Carnegie has donated \$239,000 for a hero fund for Sweden.

Baked beans, cottage cheese, salads, bread, pies, cake, all home-made, will be on sale at Price & McNeal's Saturday by the Woman's Relief Corps.

The Worth of Your Glasses

Should not be estimated in dollars and cents. If they supply, adequately, the deficiency in your vision, enabling you to see normally, they are almost priceless in the amount of good they do you. Their value lies in the service they render you.

If yours are not giving you all the help a pair of correctly fitted glasses can do, come in and let us make an examination of your eyes and find out where the trouble lies. If we fitted them and they do not suit your case we want to know it.

WHAT MADE "OSCAR WILD."

Londoners Look Forward in a Calendar Filled With Epigrams. (Chicago Tribune.)

London is enjoying a 1911 calendar which features the late Oscar Wilde and his dynamic aphorisms. Some of the clever excerpts in the calendar are:

To disagree with three-fourths of the public on all points is one of the first elements of sanity, one of the deepest consolations in all moments of spiritual doubt.

As soon as people are old enough to know better they don't know anything at all. It is vulgar to talk like a dentist when one isn't a dentist. It produces a false impression.

A thing is not necessarily true because a man dies for it.

Young men want to be faithful and are not; old men want to be faithless and cannot.

All women become like their mothers. That is their tragedy. No man does. That's his.

Each time that one loves is the only time one has ever loved. Difference of object does not alter singleness of passion. It merely intensifies it.

To lose one parent may be regarded as a misfortune; to lose both looks like carelessness.

The cook is a foolish woman who should be turned for her iniquities into a pillar of salt, which she never instinct about when to die.

The real tragedy of the poor is that they can afford nothing but self-denial.

Relations are a tedious pack of people who haven't the remotest knowledge of how to live nor the smallest instinct about when to die.

Women treat us just as humanity treats its gods. They worship us and are always bothering us to do something for them.

When one is in love one always begins by deceiving one's self; one always ends by deceiving others.

It is a curious thing about the game of marriage; the wives hold all the honors and invariably lose the odd trick.

Nowadays people know the price of everything and the value of nothing.

The world has been made by fools that wise men should live in it.

A man cannot be too careful in the choice of his enemies.

Married life is merely a habit. Formerly we used to canonize our great men, nowadays we vulgarize them.

Society often forgives the criminal, it never forgives the dreamer.

A man can be happy with any woman as long as he does not love her.

women, because they are curious; both are disappointed.

The man who could call a spade a spade should be compelled to use one.

The proper basis for marriage is a mutual misunderstanding.

Death and vulgarity are the only two facts that one cannot explain away.

Friendship never forgets; that is the wonderful thing about it.

Crying is the refuge of plain women but the ruin of pretty ones.

Everyone is born a king, and most people die in exile, like most kings.

There are moments when one has to choose between living one's own life—fully, entirely, completely—and dragging out some false, shallow, degrading existence that the world in its hypocrisy demands.

Shrove-tide Supplication. Ask me no more! I've eaten six at least

And with each one my appetite's increased: Alas! 'Tis said sufficient is a feast—Ask me no more!

Ask me no more! For fear I should succumb And overload my frail, rebellious "tum."

Though crisp and fragrant from the pan they come, Ask me no more!

Ask me no more! Ah, me no more eat; Though sweet the pleasure, bitter is the price—Dyspepsia's pangs—I say, that does look nice!

Well, just one more! —Truth.

PRESIDENT'S MESSAGE BRIEF

Congress Urged to Take Early Action on Reciprocity.

NO OTHER SUBJECT MENTIONED

Chief Executive Says the People Are Largely in Favor of its Approval Because it Is Drawn on Broad, National Lines.

Washington, April 6.—The president's message urging the ratification of the reciprocity agreement with Canada was read in both houses of congress, as follows:

"To the Senate and House of Representatives: I transmitted to the Sixty-first congress on Jan. 26 last the text of the reciprocity trade agreement which had been negotiated under my direction by the secretary of state with the representatives of the Dominion of Canada.

"This agreement was the consummation of earnest effort, extending over a period of nearly a year, on the part of both governments which, supplementing as it did, the amicable settlement of various questions of a diplomatic and political character that had been reached, would mutually promote commerce and would strengthen the friendly relations now existing.

"The agreement in its intent and in the terms was purely economic and commercial. While the general subject was under discussion by the commissioners I felt assured that the sentiment of the people of the United States was such that they would welcome the increase of trade on both sides of the boundary line, would open up the reserve productive resources of Canada to the great mass of our own consumers on advantageous conditions, and at the same time offer a broader outlet for the excess product of our farms and many of our industries.

Agreement Approved by People.

"Details regarding a negotiation of this kind necessarily could not be made public while the conferences were pending. When, however, the full text of the agreement accompanying correspondence and data explaining both its purpose and its scope became known to the people through the same message transmitted to congress, it was immediately apparent that the ripened fruits of the careful labors of the commissioners met with widespread approval. This approval has been strengthened by further consideration of the terms of the agreement in all their particulars. The volume of support which has developed shows that its broadly national scope is fully appreciated and is responsive to the popular will.

"The house of representatives and the Sixty-first congress after the full text of the arrangement with all the details in regard to the different provisions had been before it, as they were before the American people, passed a bill confirming the agreement as negotiated and as transmitted to congress.

"This measure failed of action in the senate. In my transmitting message of Jan. 26 I fully set forth the character of the agreement and emphasized its appropriateness and necessity as a response to the mutual needs of the people of the two countries as well as its common advantages. I now lay that message and the reciprocity trade agreement as part of the present message before the Sixty-second congress, and again invite earnest attention to the considerations therein expressed.

Early Action Is Urged.

"I am constrained in deference to popular sentiment and with a realizing sense of my duty to the great mass of our people whose welfare is involved, to urge on your consideration early action on this agreement.

"In concluding the negotiations the representatives of the two countries bound themselves to use their utmost efforts to bring about the earliest changes provided for in the agreement by concurrent legislation at Washington and Ottawa.

"I have felt it my duty, therefore, not to acquiesce in relegation of action until the opening of congress in December, but to use my constitutional prerogative and convene the Sixty-second congress in extra session in order that there shall be no break of continuity in considering and acting upon this most important subject.

"WILLIAM TAFT"

Senate Is Marking Time.

The session of the senate lasted only twenty-five minutes. The senate will continue to "mark time" until the house "does something."

The house took up the adoption of its new rules, limiting general debate to four hours, to be equally divided and granting the privilege of offering only one substitute set of rules.

The insurgents pleaded for the privilege of separate amendments, but were told by the Democratic leaders that their amendments would have to be included in the proposed Republican substitute.

The rules offered by the Democrats and which will be adopted provide comparatively few changes.

They provide for the election of committees instead of their appointment by the speaker, and enlarge the membership of several of the committees. Six old committees are abolished.

REVELATION IN LORIMER CASE

Kohlsaat Says Clarence Funk Told Him of Slush Fund.

INFORMANT TAKES THE STAND

Harvester Men Says Edward Hines Asked Him to Contribute Ten Thousand Dollars—Money to Be Sent to Edward Tilden.

Springfield, Ill., April 6.—H. H. Kohlsaat told the senate bribery investigating committee that Clarence S. Funk, general manager of the International Harvester company, was the man who informed Mr. Kohlsaat that a slush fund of \$100,000 was put up to elect Lorimer.

Mr. Funk was the next witness called. He said he had been with the company nine years. His attention was called to a conversation with Edward C. Hines shortly after the election. The witness said:

"The conversation took place in the Union League club. It was an accidental meeting. He said he had been wanting to see me and we sat in the lounge room.

"Hines said to me without preliminary: 'Well, we put Lorimer over, but it cost us \$100,000 to do it. We had to act quickly, so that it became necessary for us to put up the money. Now, we are seeing some of our friends to get it fixed up.' He gave me to understand they wanted to be reimbursed and I asked him why he came to us, and he said:

"You are as interested as any one in having the right kind of a man in Washington."

"I told him we would have nothing to do with it. He said he could only go to big people and wanted to get \$10,000 from each of ten. He left me and told me to think it over."

"Whom did he say they were to send the money to?" asked Attorney Healy.

"I have no evidence on that and do not want to answer," replied Funk. "Edward Tilden, connected with the stock yards at Chicago, is the man to whom I was told to send the money," said Mr. Funk, when an answer was forced by the committee.

TO REOPEN CASE IN SENATE

Progressives Will Again Move to Unseat Lorimer.

Washington, April 6.—Little doubt exists here that an effort will be made to reopen the Senator Lorimer case in the present congress. Insurgent Republicans have considered the question at recent conferences and they understand a resolution for the reopening of the case will be offered by either Senators Borah or La Follette.

These senators sought at the last session to induce H. H. Kohlsaat of Chicago to make a statement along the testimony given in Springfield, but they failed.

Friends of Senator Lorimer contend that under senate precedents he could not be unseated unless it was shown that he had been cognizant of the alleged corruption of the legislature, or that a sufficient number of votes had been bribed to destroy his majority. They also contend it will not be sufficient to show that a \$100,000 "slush" fund was used for the election of Senator Lorimer unless it can be proved he had knowledge of the use of the money.

In view of the fact that several senators who upheld the contention favoring Senator Lorimer are no longer members of the senate, it cannot be forecasted what the result of the probable reopening of the case may be.

TROOPS SENT AS WARNING TO JAPS

Insistent Pressure for Coaling Station Led to Warlike Move.

DIAZ CONSULTED UNCLE SAM.

After Hearing From President Taft Mexican Executive Notified Mikado That He Would Not Make Lease to Any Nation.

El Paso, Tex., April 6.—An explanation bearing all the marks of authenticity, clearing up the American-Mexican-Japanese situation, was given here by one of the most prominent Mexican-Americans in the country.

According to this informant, who is in a position to know, but who insisted upon the suppression of his name, President Diaz was seeking a way to refuse a coaling station on Magdalena island to the Japanese even before the renewal of the American government's contract came up for action.

"Diaz," said the Mexican-American, "found himself between the upper and nether millstones. He was impressed with the influx of Japanese into Mexico and in particular with the knowledge that they had mapped his entire western coast. Slow insistent pressure was brought on him to give Japan a coaling station on Magdalena bay. On the other side was the United States and the Monroe doctrine. He temporized until knowledge of his situation reached the White House. From the latter, to his considerable relief, came an unmistakable intimation that Japan was not to have the station, although the same privileges for the United States were not insisted upon. Diaz then informed Japan that he did not care to lease any part of his country to a foreign power.

"Not knowing what might be the result of the Mexican attitude in Japan, President Taft ordered the mobilization of a division of American troops at San Antonio, Galveston and El Paso. In Mexico every citizen of standing and information realizes that in the event of Japanese aggression, which, however baseless the fear may be, is still feared, Mexico must rely upon assistance of the United States. As against any over-sea power Mexico would stand with its neighbor to the north. Japan has never attempted the colonization of large bodies of Japanese on certain tracts of land in Mexico, but the aggregate immigration figures from the land of the rising sun are impressive."

"Are not these immigrants mostly coolie laborers?"

"Mexico does not need to import labor; they are mostly veterans of the late Russo-Japanese war. They were not brought to Mexico to make an army of protection against the Americans. They came of their own accord, and for their own ends."

"And bear this in mind, they do not make maps for fun, and we know that many of these immigrants have had no other visible occupation."

PEACE NOT IN SIGHT

More Concessions Offered to Madero Rejected by Men.

Chihuahua, Mex., April 6.—What ever negotiations were in progress elsewhere, peace seemed to be remote here, where the insurgents were known to be encamped near the city in great numbers.

It was learned on high authority that for thirty-six hours telegraphic communication had been kept up between Mexico City and a point in the field occupied by Francisco I. Madero. The nature of the communications was not divulged, but it was given out they concerned Madero's attitude toward peace in the light of his message.

Efforts were made, it is said, to ascertain without the aid of an intermediary just what would induce Madero to lay down his arms and bring about tranquillity. Concessions of even greater importance than offered in the Diaz message were suggested. It is said, but without avail. The communications stopped suddenly and with apparent determination that they would not be resumed. Immediately the work of building defenses for the security of the city was resumed.

UPLIFT NEEDED IN MEXICO

Episcopal Bishop Aves Pleads for the 11,000,000 Exploited Mexicans.

New York, April 6.—"Of all the great combinations of American capital which have exploited Mexico, not one has placed in that country an institution for the uplift or education of its illiterate millions," writes the Rev. Henry D. Aves, Episcopal bishop of Mexico, to the Churchman.

In the conditions resulting the pen and the Indian have risen in revolt against "their rich, proud brother of the north," and his spoliation of their empire, says the bishop, fighting against their thralldom rather than a human enemy.

The 11,000,000 of Mexico's 15,000,000 souls who are thus fettered, he asserts, have witnessed the granting by their government of vast concessions to Americans. They have seen Americans grow wealthy at Mexico's cost, and they see now themselves at the bottom of the social scheme. From the bitterness ensuing has been launched the revolutionary slogan, "Mexico for the Mexicans; Down With the Gringos."
